

# Record Your System's Unique Application Version

Put the system into 'Dealer Mode'

Hold the Driver Side 'Temp Up' and 'Temp Down' and 'Front Defrost' buttons down at the same time for 7-10 seconds (location of buttons may vary across vehicles).

*Note: If your vehicle does not have the buttons above: Hold the bottom left and bottom right corners of your system touch-screen at the same time (all the way at the edges avoiding pressing any actual buttons) for about 10 seconds. The 'Dealer Mode' screen should appear.*

Once in 'Dealer Mode':

Touch 'System Information'

Touch 'Radio Part Information'

In the 'Radio Part Information' Screen, you will see the 'Application Version' information.

Take a picture of this information or write it down exactly as it appears in the boxes below:

You will need to enter this information on the webstore (see next page).

□	□	□	—	□	□	□	—	□	.	□	—	□	□	—	□	□	.	□	.	□	—
□	□	□	□	□	□	□	□	□	□	—	□	□	□	□	□	□	□	□	□	□	□

The example above uses Application Version: USA-ASO-8.4-QR-37.4.0-20200715-Q0F1

This is an example only. You must enter your own unique version or you will not get the correct product.

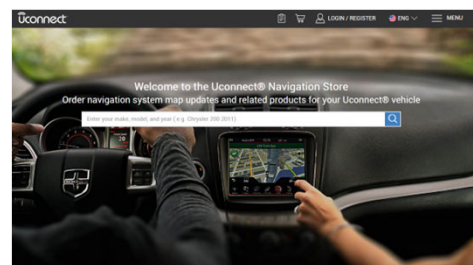

# Ordering your Map Update

To exit Dealer Mode, use the 'back arrow' at the top left or the 'X' at top right of screen.

Next, return to the Uconnect Map Update Webstore:

<https://fcagroup.navigation.com>

After entering your vehicle make, model and year, you'll be directed to the Application Version instruction page.

Select continue at the bottom of the page.

To ensure we provide you with the correct map update, you will need to get your system's unique Application Version:

**STEP 1:**

- Put the system into 'Dealer Mode'
- Hold the Driver Side Temp Up and Temp Down and Front Defrost buttons down at the same time for 7-10 seconds (location of buttons may vary across vehicles). The 'Dealer Mode' screen should appear.
- (If your vehicle does not have the buttons above. Hold the bottom left and bottom right corners of your system touch-screen at the same time (all the way at the edges avoiding pressing any actual buttons) for about 10 seconds. The 'Dealer Mode' screen should appear.)

**Touch: System Information**

**Touch: Radio Part Information**

**STEP 2:**

- In the 'Radio Part Information' Screen, you will see a line called 'Application Version.'
- Take a picture of this information (recommended) or write it down exactly as it appears.
- Use the back arrow or 'X' at top right of screen to exit Dealer Mode.

**STEP 3:**

When you click **CONTINUE** below, you will enter the entire Application Version exactly as it appears on your system screen. This version is unique to your system and ensures you get the correct product.

-Note: Enter periods and dashes. '0's' are likely numbers

-Note: Not all systems have the required Uconnect software yet to purchase a map update. If that is the case when you enter your Application Version on the next page - you will get a message that you already have the most current map available (this includes Application Versions that have 19-22.65 or lower). Uconnect is working on software for these systems.

**Example Only. Each system will have a unique Application Version.**

Enter your Application Version exactly as you previously captured it, and select continue.

INCLUDE THE PERIODS '.' and DASHES '-'.

**Note:** If you see 'ASO' or 'SBX' - those are letters. Other [0's] are likely numbers.

You will be directed to the correct Map Update for your vehicle.

Select "Add to Cart" and continue to the cart and checkout.
